REGULATION

of Participation in the Gold Medal and Diploma Competition
International Technical Fair
19–24 September 2022

1. Participation Terms

1.1. Exhibits in full-scale production or prototypes ready for production that are displayed at the International Technical Fair by companies registered as exhibitors in the Information System of International Fair Plovdiv shall be eligible to enter the Gold Medal and Diploma Competition.

1.2. **Basic Assessment Criteria for Exhibits Entering the Competition**

1.2.1. Product innovativeness, application of new materials and technologies, cost effectiveness;
1.2.2. Intellectual property protection, know-how;
1.2.3. Design;
1.2.4. Safety, harmlessness;
1.2.5. Environmental friendliness and energy efficiency;
1.2.6. Warranty period, after-sales service
1.2.7. Packaging and export readiness.

1.3. A non-refundable participation fee, as indicated in **Form 13**, shall be paid for the exhibits admitted to enter the Competition.

1.4. **Not eligible** to enter the Competition are exhibits that present:

1.4.1. Standard spare parts and products;
1.4.2. Exhibition models of equipment and products;
1.4.3. Technologies, which are not implemented in operating machines and equipment;
1.4.4. Exhibits not included in the exhibition categories of the International Technical Fair;
1.4.5. Exhibits not available at the International Technical Fair;
1.4.6. Exhibits, which have been awarded a gold medal and diploma by International Fair Plovdiv AD at a preceding competition. Such exhibits are eligible to enter the competition again after a period of three years, provided they show evidence of significant improvement in the technical and economic parameters.

1.5. Companies with outstanding financial obligations to International Fair Plovdiv AD shall not be admitted to participate in the Competition.

2. Required documents

2.1. An application form (Form 13) completed in triplicate and signed by an authorized person;

2.2. Information on the exhibitor, who could be a manufacturer or a distributor. If the exhibitor is a distributor of the product, he has to provide a written authorization by the manufacturer regarding the participation of the particular product in the Gold Medal and Diploma Competition;

2.3. A short product description in Bulgarian stating the level of innovativeness, competitive advantages, characteristics, performance, etc. compared to the current developments in the relevant sector;

2.4. Documents (a declaration of conformity, a test certificate and/or written statement) required by the Bulgarian legislation to release the particular product on the market and to confirm its compliance with the requirements of the applicable legislation;
Products of foreign exhibitors shall be accompanied by documents proving the product conformity with the legislation applicable in the respective country and/or the international standards and regulations in the relevant sector;

2.4.1. Documents containing indicators of environmental friendliness and energy efficiency of the products, if not submitted in accordance with Art. 2.4. above;

2.5. Test certificates issued by accredited laboratories, as well as certificates to prove product characteristics as indicated under Art. 2.3.;

2.6. Quality management system certificate of the manufacturer, if any;

2.7. A leaflet containing technical and economic parameters and a digital picture of the product in .jpg format;

2.8. Titles of protection issued by the Patent Office (invention patent, utility model registration certificate, industrial design registration certificate, trademark registration certificate, if any or a certificate for issued title of protection;

2.9. A declaration of full-scale production and export, if applicable;

2.10. Warranty period and service network, if applicable;

2.11. Product references;

2.12. Other data of considerable importance to the entrant of the product;

2.13. In case of building and construction products, the manufacturer shall enclose a production control system evidenced by documents, the certification of this system is not obligatory.

3. Application Documents for the Gold Medal and Diploma Competition

3.1. The application for participation (Form 13) shall be submitted 10 days prior to the opening of the International Technical Fair at the latest.

3.2. All required documents (photocopies) shall be submitted in a single copy, printed and filed in a document folder, no later than three days prior to the opening of the International Technical Fair.

4. Assessment of Exhibits

4.1 A Central Commission and expert working groups shall assess the exhibits. The Central Commission and the working groups are appointed by the State Agency of Metrology and Technical Supervision with the participation of experts from industry associations, competent government authorities and scientific circles;

4.2. The number of working groups shall be determined according to the major exhibition categories of the International Technical Fair and the submitted applications for participation:

- Machine building, robotic systems;
- Electronics and electrical engineering, information and digital technologies, telecommunications, office equipment;
- Transport and auto service equipment;
- Power engineering and ecology, water technologies and management, chemical industry;
- Construction industry;
- Other exhibits covered by the exhibition categories of the International Technical Fair that fulfill the relevant requirements.

4.3. The assessment of the exhibits is carried out in three stages.
At the first stage, the experts of the working groups check the submitted documentation.
At the second stage, all the exhibits are viewed at the exhibition stands and the working groups nominate the products for the gold medal awards. Each of the working groups announces its decision in a statement signed by all members and the chairperson.
At the third stage, the chairperson of the working group presents the nominated exhibits and the Central Commission votes for the winners of gold medal and diploma awards.

4.4. The Central Commission declares its decision on the awards in a written statement.

4.5. The decision of the Central Commission is final and is not subject to appeal.

6. Right to Use of the Awards

Natural persons and legal entities, whose exhibits are presented with a gold medal and diploma, are entitled to make use of the awards in their business activities.

- For promotional purposes, an indication could be given that the particular product is a “gold medal and diploma” award-winner, e.g. presentations, advertisements of any form, i.e. printed matter, audio and video clips, websites, etc.
- Along with the text, a graphic image of the gold metal (an original or stylized one) could also be added, the product label including.
